We also discussed the 2015 Gov Tech projects which will include the street lighting contract and the LED street lighting project. We also discussed how each of the communities is being forced to do more with fewer funds.

The community shred day will be May 9. We will advertise this event for all the residents. This event will cost \$600.

Our Sanitary Sewer Rehabilitation Project Phase II has been advertised. We will have a bid opening on February 6 and hopefully award the bid at the February 17 Council Meeting. The sanitary sewers and manholes to be rehabilitated are located on Bradley, East Market, McCall, Stewart, Butter, Bruce and in Hillcrest Park.

There was a change in the Council Liaisons positions from the last meeting. The Miami Valley Regional Technical Committee is no longer an active Board and was removed from the list.

The Economic Development Government Equity Grant that was applied for and received for Pointe Source is on hold until after the proposed annexation process is complete. At this time they do not see any reason why there would be any issues with Pointe Source receiving the grant.

She was made aware of a small issue with the online bill pay system but it has been corrected. The customer's statements were showing payments made to Anna Sizemore. She assured everyone that the payments were made to the Municipality and not to her personally. If anyone would like to see documentation proving this please contact the Municipal Office. So far the service has been very successful with approximately \$4,500 collected. She reminded everyone that is using the online bill paying service that it takes approximately two days for the transaction to go through the process completely. Please do not think that if you pay on the due date that it will be posted that day.

She went on by saying that there will need to be an amendment to the Traffic Control Map. This will be an amendment to prohibit parking on the North side of Peffley Street temporarily. This will hopefully help the busses when turning avoid the potholes and any parked cars. Staff will notify the residents that will be affected.
